# Claim Tree Constructor - Quick Reference Guide

April 2002 - Created by David Yockey - Guide Version 1.0 for CTC 1.02

New Constructor Window · **Tree** · **Notes Grid** · **Text Pane** · **Independent Claim** · **Dependent Claim** · **Multiple Dependent Claim** · **Multiple Stored Lines Indicator** · **Input Box** · **Renumber Claims**

Adding Claims:

Independent Claim:

    1) Type new claim number in Input Box

    2) Hit Enter while holding the Shift key or click

Dependent Claim:

    1) Select a claim in the Tree   **OR**   1) Type new claim number / claim on which the

    2) Type a new claim number in Input Box   new claim depends in Input Box (e.g. 7/4)

    3) Hit Enter or click   2) Hit Enter or click

Multiple Dependent Claim (MDC):

    1) Type the new claim number in Input Box followed by a / character

    2) After the / character, type the list of claims on which the MDC depends

        - Separate series of claims by commas, e.g. 8/2,4

        - Enter a range of claims separated by a hyphen, e.g. 9/2-4

        - Series and ranges can be combined, e.g. 10/2,4,6-7

    3) hit Enter or click

Renumbering Claims:

Click   - click again to remove renumbering.

Text Editing:

    - *Notes:* Each box the Notes Grid corresponding to a claim can be edited by clicking on the box and
        typing text. This text is identical to the first line in the Text Pane.

    - *Multiple Lines of Text:* The Text Pane corresponds to the selected claim in the Tree. Multiple lines of
        text can be typed or cut & pasted into the Text Pane as desired.

Printing:

    - *Print Tree:* click   - if renumbered, a suitable-for-mailing form including the Tree with renumbering is
        printed; otherwise, the Tree is printed without renumbering.

    - *Print Tree with Notes:* click   - prints notes in Notes Grid adjacent claims in the tree.

    - *Print Tree with Notes in Landscape:* click

    - *Print Text Pane:* click   - prints text in the Text Pane for the currently selected claim.

For Additional Information:

    - Select Show Help File in the Options menu.
